B-1040 Brussels

In response to PTA telephone conversation on the 26. November 2008, regarding the notification of market analysis and obligations on markets 8 – 10, specifically paragraph 549 on page 114, in chapter 7.4.5.4 on the price controls obligation set on Vodafone in market 9, the PTA wishes to clarify the following:

The table in paragraph referenced above, as it is in the notification document, was unchanged from the local consultation that was held in March 2008. The updated version that will be in our final document is as follows:

Table 7-1 Reductions of call termination prices in Vodafone's fixed-line networks

	Day rate ISK/min	Evening/night/ weekend rate ISK/min	Connection fee ISK/connection
Síminn's price from publication of decision	0.44	0.26	0.68
Vodafone's price from publication of decision	0.66	0.44	0.99
Vodafone's price 1 year after publication of decision	0.61	0.40	0.91
Vodafone's price 2 years after publication of decision	0.55	0.35	0.84
Vodafone's price 3 years after publication of decision	0.50	0.31	0.76
Vodafone's price 4 years after publication of decision	0.44	0.26	0.68

PTA hopes this clarifies the issue of the terms of the price caps set forth in the above mentioned chapter in the notification document.
